

HR masthead unit with new windmill firmware development

NO COMPATIBLE WITH HR MASTHEAD UNIT WITH OLD WINDMILL

- V2.1 PROCESSOR COMPATIBLE
 - Management of the new component to calculate the wind speed and the new monobloc WINDMILL.
 - Adding an offset factory for the adjustment the wind direction, adjustable by Toplink software.

- V2.6 PROCESSOR COMPATIBLE
 - Adding “True wind” tables (accessible from the Multigraphic V.17)
 - Fixed a bug of alarm.
